

INTERNATIONAL CONFERENCE ON

OPIOIDS™

OPIOIDS IN PAIN MANAGEMENT: *THE FUSION OF SCIENCE AND PRACTICE*

Joseph B. Martin Conference Center
at HARVARD MEDICAL SCHOOL
Boston, Massachusetts
June 11-13, 2017

Dear Colleague,

The *Journal of Opioid Management* is pleased to offer the sixth annual *International Conference On Opioids*, June 11-13, 2017, at the Joseph B. Martin Conference Center at Harvard Medical School, 77 Avenue Louis Pasteur, Boston, Massachusetts. We are confident that your participation in this significant event will prove invaluable in your practice as it relates to the use of opioids for your patients.

An evidence-based educational conference is planned which will provide cutting-edge research and the latest in clinical best practices of opioids to improve patient outcomes. As the paradigm continues to evolve the new normal will be discussed with a look to the future of opioid prescribing including its challenges and solutions. We are guided by a dedicated conference committee and joined by renowned specialists in basic science, clinical application, compliance and the legal aspects to present this unique forum.

The *International Conference On Opioids* is designed to enlighten primary care physicians, pain specialists and other medical professionals with an interest in applied opioid pharmacology, with new data, essential information and best practices every medical professional needs to know when prescribing these powerful analgesics.

Known as the birthplace of the American Revolution, Boston enjoys world class education, arts, entertainment and sports. This modern compact city allows visitors to walk from the Longwood Medical area to the waterfront in less than an hour. From the brownstones of Beacon Hill to the lovely Boston Gardens and the Freedom Trail, Boston is a great destination to visit. *Please join us.*

Sign up now using the enclosed registration form or visit www.opioidconference.org.

Paul A. Sloan, MD

Co-chair

International Conference On Opioids™

Editor-in-Chief

Journal of Opioid Management®

Michael J. Brennan, MD

Co-chair

International Conference On Opioids™

The Journal of Opioid Management presents this activity for educational purposes only. Participants are expected to utilize their own expertise and judgment while engaged in the practice of medicine. The content of the presentations is provided solely by presenters who have been selected for presentations because of recognized expertise in their field.

Keynote Speakers

Kana Enomoto

Principal Deputy Administrator

Substance Abuse and Mental Health Services Administration (SAMHSA)

Addressing America's Opioid Crisis: How Practitioners Can Be Agents for Change

The opioid crisis is one of the most critical public health challenges of our time. A groundswell of action is needed, from every sector, to meet this crisis head on. Ms. Enomoto will discuss how SAMHSA is leading change at the national level to combat this growing problem, including how the 21st Century Cures Act and the Comprehensive Addiction Recovery Act of 2016 are shaping the federal response. She will focus on the critical part practitioners can play in the solution—including recommendations for using Facing Addiction in America:

The Surgeon General's Report on Alcohol, Drugs, and Health as a resource for education and advocacy, and opportunities that exist for healthcare professionals to be change agents at every level—patient, health system, and at the local, community, state, and federal levels.

Sharon Walsh, PhD

Professor, Departments of Behavioral Science and Psychiatry

Director of the Center on Drug and Alcohol Research, University of Kentucky

Tackling the Opioid Epidemic with Science: Studies from the Laboratory and Clinic

The opioid epidemic continues to cause great morbidity and mortality among those who misuse opioids alone and in combination with other agents. Both the human laboratory and the clinic provide settings to explore various strategies that may improve these outcomes. Recent studies on novel pharmacotherapies for the treatment of opioid use disorder and potential adjunct treatments will be reviewed in this presentation.

The presentation will describe both proof-of-concept studies and Phase III study outcomes. Data will be presented on novel formulations of buprenorphine that have just been recently marketed (i.e., the buprenorphine implant) and in the current pipeline (sustained release injectable formulations of buprenorphine) for opioid use disorder and for pain. Recent studies on the potential utility of agents from the cannabinoid class for use as adjuncts in the presence of opioids will also be reviewed. Finally, approved products and application for naloxone overdose prevention will be reviewed.

Keynote Speakers

Lynn R. Webster, MD, FACPM, FASAM

Vice President of Scientific Affairs, PRA Health Sciences

Past President, American Academy of Pain Medicine (AAPM)

What is the Role of Opioid Abuse-Deterrent Formulations?

The ability to convert an extended opioid formulation into an immediate release opioid, or the ability to inject or snort an opioid, has contributed to an enormous public health crisis. It is imperative that we significantly reduce the level and risks of prescription opioids if opioids are to remain available for the treatment of pain. Abuse-deterrent formulations (ADFs) are an attempt to make opioids safer, but there has been tremendous opposition by payers to adopt the technology. This discussion will review the evidence and rationale for abuse deterrent formulations and where future development needs to go.

Dr. Lynn Webster is an expert in the field of pain management and is a leading voice in trying to help physicians safely treat pain patients.

Special Presentation

Sunday, June 11, 2017, 6:30 pm - 8:00 pm

(Free Admission - Pre-Registration Requested)

"If Only" is a short film co-written and co-produced by James Wahlberg and Michael Yebba with the purpose of building awareness of the ever-growing opiate addiction problem. It tells the story of two teenagers battling addiction to prescription opiates. "The film addresses one of the most serious health issues facing our society today. Addiction touches every culture, every family and ultimately every one of us," Wahlberg said. "I'm grateful for the opportunity to create a project that informs, educates and leads viewers to recognize the warning signs of opioid abuse and to participate in a solution."

Producer James Wahlberg is the middle child of the famous Boston family. Jim emerged from a tough upbringing in the streets of Dorchester, Massachusetts and has been Executive Director of the Mark Wahlberg Youth Foundation for more than a decade. The Foundation was created to improve the quality of life for inner city youth through a working partnership with other non-profit youth organizations. He has also been working in and around the field of addiction recovery for more than 25 years.

JUNE 11–13, 2017

The landscape of opioid prescribing is complex and changing dramatically.

Join us for this unique educational opportunity to learn from leaders in the field of opioids.

This intensive 2+ day program led by renowned specialists is designed to inform primary care physicians, pain specialists, pharmacists and other opioid prescribers in the uses, abuses and legal ramifications of opioid analgesics.

Learn to manage the complexities of opioid analgesics.

Acquire or refine your clinical skills including appropriate patient and opioid selection, monitoring, and reassessment. Come to a conference that will lay out the current landscape, explore the future and provide you with the information you need to know.

Why should you attend?

The conference features a full schedule of topics and speakers who will address all aspects of the medical use of opioids.

- Learn to reduce risk to your patients and your practice
- Hear about exciting developments in opioid neurology and pharmacology
- Learn the latest clinical concepts, ethics and legal aspects of opioid management from top medical professionals
- Gain an understanding of the newest methodologies for delivery of opioids
- Participate in constructive panel discussions and case studies with top professionals in opioid management
- Take advantage of meeting thought leaders and networking with colleagues

Important Information and CME

Course Directors: Paul A. Sloan, MD, Michael J. Brennan, MD

CME Course Advisor: Daniel Alford, MD, MPH, FACP

Faculty Disclosure: Boston University School of Medicine asks all individuals involved in the development and presentation of Continuing Medical Education (CME) activities to disclose all relationships with commercial interests. This information is disclosed to CME activity participants. Boston University School of Medicine has procedures to resolve any apparent conflicts of interest. In addition, faculty members are asked to disclose when any unapproved use of pharmaceuticals and devices are being discussed.

Jointly Provided by Boston University School of Medicine and Weston Medical Publishing, LLC.

Accreditation: This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Boston University School of Medicine and Weston Medical Publishing, LLC. Boston University School of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

Boston University School of Medicine designates this live activity for a maximum of 18.25 *AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

RN Credit: Continuing Nursing Education Provider Unit, Boston University School of Medicine is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation. This educational activity has been provided by Continuing Nursing Education Provider Unit, Boston University School of Medicine and jointly provided by Weston Medical Publishing, LLC.

CPE Credit: The University of Rhode Island College of Pharmacy is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

ADA Support: Boston University School of Medicine and Weston Medical Publishing, LLC fully comply with the legal requirements of the ADA and the rules and regulations thereof. If any participant in this educational activity is in need of accommodations, please contact Michael Glynn at 781-899-2702 Ext. 103 by May 1, 2017 in order to receive services.

Cancellations: Should you be unable to attend, please inform us in writing prior to May 1, 2017 and a full refund less a 25% non-refundable administrative fee will be issued. No refunds or credits will be given for cancellations received on or after May 2, 2017. Substitutions of enrolled registrants must be made in writing. If for any reason this conference is canceled, the conference organizers and sponsors do not accept responsibility for covering airfare, hotel or other costs incurred by conference registrants. The speakers and agenda of this program are subject to change without notice due to unforeseen circumstances beyond the control of conference presenters.

Hotel Information: Please visit www.opioidconference.org for details.

[™] At the end of the six month subscription period you will receive an automatic renewal notice at the preferred rate.

ICOO 2017 Schedule June 11-13, 2017

Sunday, June 11, 2017

8:15 am – 9:15 am

Addressing America's Opioid Crisis:

How Practitioners Can be Agents for Change

Kana Enomoto

9:15 am – 10:00 am

The Effect of Abuse-Deterrent Formulations and Immediate-Release Opioids on Abuse, Overdose and Death from Prescription Opioids

Richard Dart, MD, PhD; Dan Cohen; Paul Coplan, ScD

10:30 am – 11:15 am

Evidence for Chronic Opioid Therapy

Charles Argoff, MD

11:15 am – 11:30 am

Opiate Use and Over-Prescription in Post-Operative Patients

Eric Chen, MD, PhD

11:30 am – 12:30 pm

Improving Opioid Safety and Access to Quality Pain Care within the VA New England Healthcare System (VISN 1)

Julie Franklin, MD, MPH; Tu Ngo, PhD, MPH

1:30 pm – 2:15 pm

Looking Both Ways Before Crossing the Street:

Assessing the Benefits and Risk of Opioids in COPD

Mellar P. Davis, MD

2:15 pm – 3:00 pm

MeDSS: A Data-Driven Decision Support Tool for Pain Management

Jaya Tripathi; Scott Weiner, MD, MPH

3:00 pm – 3:30 pm

Pain Patient Reported Outcomes as a Predictor of Healthcare Resource Utilization (HCRU) in Prostate Cancer Patients

Natalie Moryl, MD; Ali Bokhari; Alison Wiesenthal, MD

4:00 pm – 4:15 pm

KFL&A Public Health Action Plan on Opioids:

Reducing the Community Opioid Load

Kieran Moore, MD, CCFP(EM), FCFP, MPH, DTM&H, FRCPC

4:15 pm – 4:30 pm

Summary/Overview of Opioid Management in Cancer Survivors

Paul A. Sloan, MD

4:30 pm – 5:30 pm

Opioid Management in Cancer Survivors:

Emerging and Evolving Challenges

Larry Driver, MD; Lakshmi Koyyalagunta, MD

6:30 pm – 8:00 pm

SCREENING: "If Only"

James Wahlberg; Michael Yebba

Monday, June 12, 2017

8:00 am - 9:00 am

KEYNOTE: The Role of ADFs in Curbing Opioid Abuse:

Can ADFs Reduce Opioid Abuse?

Lynn Webster, MD

9:00 am - 9:45 am

Treating Pain Without Prosecution:

Minimizing the Risk of Prescribing Opioids

Carol Warfield, MD; Benjamin Wish, JD

Monday, June 12, 2017 (continued)

10:15 am – 10:45 am

Drug to Drug Interaction

Elinore McCance-Katz, MD

10:45 am - 11:45 am

Ketamine Use in Chronic Pain Management

Lucy Chen, MD, PhD; Jianren Mao, MD, PhD

11:45 am - 12:30 pm

Overview of Cannabinoids & Opioids

Seddon Savage, MD, MS

1:30 pm - 2:30 pm

Utilizing Precision Medicine Technologies to Avoid and Treat Prescription Opioid Abuse

Lynn Webster, MD; Ramsay Farah, MD; Katrina Lewis, MD

2:30 pm - 2:45 pm

Opioid Addiction: The Social Construction of an Epidemic

Fiona Webster, PhD; Kathleen Rice, PhD; Jae Eun Ryu, MD

2:45 pm - 3:30 pm

Assessment, Treatment, and Outcome of Pain Patients

at Risk for Prescription Opioid Abuse: A Naturalistic Study

Stephen Butler, PhD; Stacey McCaffrey, PhD

4:00 pm - 4:30 pm

First Do No Harm: Implementing an Opioid Stewardship Program in a HealthCare System

Douglas Oyler, PharmD; Kristy Deep, MD; Phillip Chang, MD

4:30 pm - 5:30 pm

Your Name is on the Bottle: Current Opioid Prescribing Litigation Trends and Risk Mitigation Tools to Protect Yourself, Your Practice and Your Community

Judge Jodi Debbrecht Switalski, BA, JD

Tuesday, June 13, 2017

8:00 am - 9:00 am
