

# Journal of Opioid Management®

## 2023 Rate Card

Peer-reviewed and indexed in PUBMED/Medline, **Journal of Opioid Management** is the only journal that deals with opioids as a class of drug. Covering basic science, research, clinical applications, pain management, abuse and compliance, the Journal is guided by an Editorial Review Board of internationally recognized experts offering physicians and all healthcare providers a forum on how to safely and responsibly prescribe opioids for the treatment of all forms of pain.

ISSN 1551-7489, ESTABLISHED: 2005

# Journal of Opioid Management<sup>®</sup>

Excellence in Opioid Therapies

“Opioids are the cornerstone of effective pain management and are safe when used properly. Information and education are key. That is why I read the Journal of Opioid Management.” -M. Davis, MD

“I read the Journal of Opioid Management cover to cover and keep it handy as it is the most unbiased source of information on the proper use of opioids for my patients.” Dr. E. Smith, Pain Management Specialist

“I keep the Journal of Opioid Management right next to my copy of NEJM as I believe that it offers the same level of quality articles. In a high risk field, JOM stands out!” Dr. E. Bruera, Pain and Palliative Medicine Expert

## Reach doctors and other healthcare providers in a journal they trust!

Journal of Opioid Management provides the definitive compilation of leading articles dealing with basic science, clinical application, abuse, compliance and the public health aspects of opioids. Manuscripts are fully peer-reviewed and selected to provide healthcare workers with a complete authoritative reference work to be used every day.

## Opioids are highly complex drugs and have genetic variability!

A must read for all healthcare providers who prescribe opioids in their practice. With the complexities of opioid pharmacology combined with the challenges of the Affordable Care Act and the epidemic of opioid abuse in America, healthcare providers need a reference work that allows them to effectively manage their patients' therapy.

## Place your pharmaceutical brand or service in front of those seeking best in class in the pain field!

Journal of Opioid Management is a comprehensive authoritative reference work highlighting the best, most timely, scientifically rigorous, unbiased, leading edge information in all aspects of opioid analgesics. Place your products and services in front of discerning customers who are looking for the latest solutions to manage their patients outcomes in a timely and cost effective manner.

## Excellence in Delivering Customers

**“Journal advertising continues to be an effective promotional tactic and cost-efficient part of a multimedia marketing program.”**

*Medical Marketing & Media, April 1, 2012*

According to a survey recently conducted by Doximity, nearly 75 percent of physicians change their clinical practices quarterly or monthly based on reading medical literature. The survey also found that 98 percent of physicians reported reading medical literature is important or very important to their practice.

Physicians are more likely to read the print version of new medical journals versus any type of digital version, including full digital reproductions, the publication’s website as well as tablet and smart phone applications, according to the Kantar Media Sources & Interactions Study, March 2013 – Medical/Surgical Edition.

The study reveals that 89% of doctors read

the print version of current issues of medical journals, far more than the 51% reading journals digitally. Of all doctors surveyed, 99% read current issues of journals and 46% utilize two or more platforms for reading. About one in five doctors use 3 or more devices.

The **Journal of Opioid Management** is uniquely positioned as the medium to provide clinicians information they need on all formats and devices to make changes in their practice to meet the challenges of delivering higher quality care more efficiently and guiding patients toward greater participation in their own health.

“Opioids are the cornerstone of modern pain management for cancer pain and chronic non-cancer pain, our journal maintains an unbiased position on all aspects of opioids and provides critical information every clinician needs to know about opioid therapies.”

*Paul A. Sloan, MD, Editor-in-Chief*

# Journal of Opioid Management®

## Broad Market Reach

### Reach prescribers for less than 50 cents each!^

No other journal utilizes sophisticated data mining algorithms to combine NPI, prescribing history, conference attendance and medical speciality to locate doctors and other healthcare providers who are actively prescribing opioids and seeking the most advance patient care available.

### Do you have a target audience or prospect list you would like to reach?

If so, contact us about our “Sponsored Issue” program. For around \$10/contact \*\* we can put a copy of *Journal of Opioid Management* along with your media assets in front of your preferred customer list. Give your customers the messaging they need to select your product along with a copy of *Journal of Opioid Management*, the leader in opioid therapies.

^Cost based on 6x page rate and standard 4/c color charge.

\*\* Cost based on 15,000 copies minimum and includes up to a 3.3 ounce ride-along brochure. Advertising costs inside the journal are extra.
